## Elba Jail Again Under Fire

### Commission Votes To Use Property Tax Funds To Build New Jail

The Coffee County Commission met in regular session on Monday, January 12, at the courthouse in Elba, and on a split vote agreed to use the additional funds which will be collected under the new property tax appraisal program to build a new county jail in Enterprise.

Rumors circulating last week hinted the Commission would pass a 1-cent sales tax to finance the jail construction, and the superintendents of all three school systems in the county were at Monday's meeting to voice opposition to the highly controversial sales tax proposal. The trio refused to state the meaning of their presence at the meeting when recognized by Probate Judge James L. Sawyer, but everyone present knew of their opposition to the sales tax.

"I think I know why the superintendents are here," said Commissioner Don Smith, "and I would like to go ahead and say what I have to say. The tax assessor told me the new property appraisal would add \$500,000 a year in tax revenue, and I move that this money be used to comply with Judge Gamble's ruling to build a new jail in Enterprise. I think we should use as much of the additional funds as needed."

Commissioner Rex Boutwell disagreed and stated, "According to state figures we're only 40% behind in collecting. We now get only \$500,000, and I don't think there is any way the new appraisal will bring in that much. This appraisal will raise property tax rates 40-50%, and we have the authority to lower the proposed increase. I would have to vote against your plan."

Commissioner Bennie Beckham seconded the motion, and the vote went 3-yes and 3-no. Voting yes were Smith, Beckham and Reeves, while opposed were Boutwell, Grant and Hornsby. In the case of a tie, the Probate Judge votes, and Sawyer voted in favor of the motion.

County Attorney Braxton Rowe stated since the new motion adopted a method of financing the jail, Judge Gamble should be pleased with a showing of progress. Rowe added he would inform Gamble of the motion "very soon."

While some action was taken on the new jail to be built in Enterprise, it became clear that some additional work must be done to the existing jail in Elba. A jail report released Monday declared the county jail "is a fire and safety hazard..." and "the jail has outlived its usefulness."

The report, issued after a recent inspection by state officials, stated, "The jail is a fire and safety hazard. The inside stairwell is steep and narrow, and there is a need for additional jailers and matrons. The kitchen is in fair condition, but the standards of sanitation still are not adequate. The screens in the kitchen are in poor condition. The general condition of the plumbing is poor. Ventilation is not adequate, lighting is not adequate. Inmates are not required to bathe. The yard is in poor condition. A number of smoke/fire detectors are installed, but do not work. The cell bars are in need of repainting and are dirty. The sheriff and his staff are working continuously to improve the jail, but the jail has outlived its usefulness and would better serve the county by being closed and a new facility opened."

The report was examined briefly by all the commissioners, but no discussion took place, and the report was filed.

A bill for \$94 was presented to the Commission for a legal notice placed by the Pensions & Security Department, and an enclosed letter requested the Commission seek an attorney general's ruling on whether the county is required to pay the bill (as earlier requested). The county attorney (in a letter) stated the bill is not the county's responsibility and should not be paid by the

Commission, but by Pensions & Security. The Commission agreed to send the bill back to the Department of Pensions and Security, along with the letter from the county attorney.

The State Revenue Department sent a proposal to the county to do computer printing of tax receipts for an initial charge of \$600 to program the computer, and a charge of 2 cents per receipt afterwards. The Revenue Department currently prints tag registration receipts for several counties and bills the counties monthly for the service. In the future, the county would only have to pay for the paper used in the print-outs. The Commission was in favor of accepting the state's offer, but later discovered it was under contract with a private firm to do the work through 1982.

County Engineer Bill McClain was present at the bi-monthly meeting and reported the state had adopted guidelines on how the recent 4-cent gas tax revenue could be used. The State Highway Department stated the money could only be used for resurfacing of roads and repairs on bridges - it could not be used to pay for new paving projects. The State also instructed all counties to draw up plans for resurfacing projects. McClain passed out booklets compiled after a recent inspection of all the roads in Coffee County, and the booklet included a grade on the condition of all the roads. He asked the Commission to accept the report as a means of identifying project numbers, and the Commission approved the request.

Monday was the final regular meeting for the outgoing commissioners, and Commissioner Bennie Beckham took time to ask that a long-delayed project be completed. "A long way back, the Commission agreed to do some road work for the people at Shiloh Community," said Beckham, "and the work still hasn't been done. As a departing request, I would like to

ask the county engineer to do the work as soon as possible. It's been dragging on for 3 years, and I'd like to see the work done."

The engineer reported the county needed one more deed before the work could be started, but promised the work would be done as soon as everything was cleared up.

While paying bills, a bill from the Circle Pharmacy in Dothan was noticed, and after further study, it was found the bill was for \$25.55 for drugs for Billy Joe Magwood. Magwood, the accused murderer of Sheriff Neil Grantham, is in the Houston County Jail in Dothan awaiting trial scheduled for this summer in Elba.

In other action at Monday's meeting, the Commission:

\*\*\*received a letter of thanks from the Vivian B. Adams School for a yearly donation of \$1,000;

\*\*\*received a letter of thanks from the 5-Star Volunteer Fire Department for a \$5,000 donation (the money will be used to build headquarters next to Haw Hill Church);

\*\*\*was told by Commission Clerk Brunese Winston that the CEFA program had been cut from 78 weeks to 52 weeks, and since there was now a hiring freeze, the county would be forced to terminate several workers;

\*\*\*was informed bids on assessment sheets for the tax assessor's office would be opened on January 26;

\*\*\*was informed that bids on a crane and dragline would be opened on January 26;

\*\*\*praised the work done by the four outgoing commissioners during their stay in office;

\*\*\*was thanked by the superintendents of the county's three school systems for their support, and the work done on the dirt roads used by school buses;

\*\*\*agreed to purchase a tractor on which to mount a mow-trim to be used by the Highway Department (bids will be opened at the next meeting on January 26);

\*\*\*agreed to pay the cost for an electrician to do "re-wiring" on walls in the newly-remodeled offices to be used by the State Juvenile Office and State Probation Office (the remodeling work was done at no cost to the county; and

\*\*\*paid bills.

The next regular meeting of the Commission will be held on Monday, January 26, at the courthouse in Elba, and the new commissioners will be in office.

### Public Meeting Held To Discuss Connector Road

A public hearing on the proposed connector road from the Brundidge Highway to the Kinston Highway via the Troy Highway, Taylor Mill Road and Opp Highway, was held last Thursday evening at the Elba Elementary School. There were 79 local citizens present plus a number of employees of the State Highway Department.

Those present were shown maps of the proposed road, charts showing the need and benefits, and were asked to express their opinions during the formal part of the meeting and during informal discussions with individual employees of the department.

Mr. James Kelley, Division Engineer, and Mr. Leonis Stinson, District Engineer, were both present at the meeting by Elba's Dykes Rushing, who is in charge of this phase of the project.

Rushing told the group some of the details of the project and turned it over to Mr. Bobby Ezell who discussed the procedure for getting the right-of-way, the various programs for paying for

property and cost of moving. He said the proposed project would affect 15 families and 3 businesses. The project will be funded with 75% federal funds and the state will furnish the remaining 25%.

Bill Oggs spoke out in opposition to the project and asked Rushing why the state proposed to build the road.

Rushing told Oggs they had projected the need as traffic increased; that if you now go from point A to point B in Elba, you must go to within one block of the square. Rushing said the connector road would make it more convenient to pass through Elba, and it would make getting from point A to point B much easier. He also pointed out the projected traffic flow for the next 20 years.

Roland Powell spoke in favor of the project; Dr. Jim Boyce questioned the safety to children; Dr. Phillip Hamm asked about traffic lights, and Douglas Gibbs expressed concern on getting utilities to his property after the road

gets his present home.

Elba Mayor Bob English assured Gibbs the city would do anything within reason to get water and sewage to displaced property owners, and as a member of the Southeast Alabama Gas Board, he assured Gibbs every effort would be made to serve him with natural gas.

George Windham noted he had worked at Dorsey Trailers for 26 years and was strongly in favor of the project.

### Public Forum Set On Recreation Project

There will be a public meeting today (Thursday) at 10:00 a.m. at the Elba City Hall concerning recreation. The meeting has been called to allow interested citizens an opportunity to express their views on the recreation needs of the community.

The City of Elba is planning to apply for a federal grant to complete the proposed new recreation park and the plans for this project will be discussed.

### Judge Gamble Rules County Not In Contempt

A ruling was issued Wednesday of this week on a contempt-of-court hearing in the civil suit filed against the Coffee County commissioners that resulted in their being ordered to construct a jail in the Enterprise division of Coffee County.

The ruling by Judge Arthur Gaucie found that the commissioners had not complied with former orders of the court but didn't hold them in contempt. He noted that four of the commissioners

were to be replaced on January 19; the county had reached its constitutional debt limit for ad valorem tax, and that new sources of revenue must be found to finance the construction.

Judge Gamble ordered that the defendants report immediately to his court the action taken by them at the January 15 (today) meeting to select an architect for the jail project.

The court order also requires that the new county commission report

within 90 days of their induction into office, what definite steps they have taken in order to comply with the former orders of the court.

Gamble also retained jurisdiction of the defendants - Bennie C. Beckham, Max Reeves, Don Smith and Jack Hornsby - for any further order the court may issue.

The order was dated January 12, 1981.

## Brainstorms

With Fern Cox

We have been keeping up with the weekly trend in interest rates and have expressed excitement for the past couple of weeks when there have been drops in the rates on the national level. Now we must report a change of direction as there is a reversal and the rates have jumped again this week. I guess this means there are no fast solutions to all our economic problems.

For the past several weeks you've seen the editor has been spending some additional time reading and studying the comments of the economists in an effort to learn just which way the economy is going, both in the near term and over the next five or ten years. If we read the wisdom of one or maybe two of these self-anointed experts, we may have a pretty good idea of what is happening, but... if we read the opinions of three or more of these experts, we are completely lost. Typical of this was a Wall Street Journal headline recently where six or eight "experts" predicted the prime interest rates anywhere from 9% to 30% in 1981. Probably the 9% man is lower than reality, and hopefully the 30% man is also; but odds are that we will have high interest rates for a while.

There were a bunch of folks present Thursday evening at the public hearing on the connector road proposed by the State Highway Department. Those present were shown proposed routes on maps that would let folks know exactly where the road would be located. We have supported this project from its inception and continue to do so. Something we haven't praised enough, however, is the thought it will take a lot of traffic off this Whiteaker Bridge, the bridge from WPA days that has a curve and a hill on the narrow structure.

We quit deer hunting fifteen years ago on Thanksgiving Day when we realized there were so many folks in the woods with guns, it made us look intelligent. The type thing that disturbed us was demonstrated last week in Brundage when the eighth-grade class of Elba's Mickey McCollough was interrupted by a high-powered rifle bullet entering the room through the upper part of the window. It was determined by police the bullet had traveled several miles over the town before entering the school. Had the projectile been a little lower, there would have been a disaster in the classroom. The hunter who fired the shot probably doesn't realize (or care) what happened to the bullet once it missed his prized deer, but ye old editor would like to wrap the rifle around his neck and tie a neat bow right under his chin.

General Alexander Haig is catching fire from opposing U.S. senators in his effort to be confirmed as Secretary of State. However, Tuesday, he gave one senator what he deserved when he used some harsh words on Democratic Senator Pat Sarbanes of Maryland. Sarbanes was undoubtedly playing party politics when he continued to question Haig about Watergate and the cover-up effort. We feel Haig is the type man this country needs in that position and recall that more than a few folks in South Alabama openly advocated him for President.

The large \$42 million civil suit being tried in Elba presently apparently will wind up either Wednesday or Thursday. The jury has been told to expect the case to finish either of these days. That is, the first round will be over, as we predict one side or the other will appeal the decision of the jury.

The national news media is reporting that the release of the Iranian hostages is getting nearer. That is, they are quoting Iranians as saying it will be soon. We are not going to expect anything until we see them coming home.

The cold weather that hit us this week was a surprise to ye old editor. I went to bed Sunday night not realizing the temperature would be in the teens when I awoke Monday morning. It seems the low temperatures set records throughout the nation and especially in the South. Reports that Key West, Florida, hit the lowest in something like 75 years got our attention. The folks selling heating fuel and electricity are probably grinning from ear to ear as we try to keep warm. We know the folks selling plumbing supplies are busy as we repair frozen water pipes.

Persons admitted to the Elba General Hospital during the period of January 6-12 include the following:

Estelle White, Beulah Owens, J.E. Morgan, Bill Smart, Bessie Bullard, Eugene Tiner, Debra Lepore, Angela Gray, Dorothy Whitehead, Jimmy Peacock, Billy Boland, Ethelene Tucker, Minnie Flowers, Jessie Free, J.L. ## McCorquodale Speaks To Rotarians

Speaker of the Alabama House of Representatives, Joe McCorquodale, was the guest speaker at the Elba Rotary Club on Monday of this week. He spoke to an attentive audience of over 60 Rotarians, guests and representatives of the news media.

Prior to his addressing the group, the speaker circulated a pad and asked those present to list items they

wished to have discussed during his talk. Education problems dominated the list, but other problems of state government received their share of interest.

McCorquodale told the audience he was opposed to any additional taxes in 1981. His speech was immediately interrupted by applause.

Rotarian Paul Windham was in charge of the program.

### Andy Cape Makes All-State

**BY: SHERRY WHITE**

We would like to take this opportunity to congratulate Andy Cape on his success in his football accomplishments. He made 1-A All-State, being chosen as one of the best of 22 players in 1A football. He made linebacker position, had 165 tackles, 1 pass interception.

### New Year's Resolutions

**BY: RICKY NICHOLSON**

Out of curiosity, and out of necessity for a journalism story, I thought it would be nice to ask some of the faculty what their New Year's resolutions were. Most teachers didn't make any, but here are some of those who did:

Cindy Baker - To quit doing reports for Rhonda Jim Little - Not to fight with Gena Lisa Stinson - To firm and shape up my body.

### Wedding Performed In Family Living

**BY: KIM DYESS**

The Family Living Class has spent the first semester learning more about themselves as children and adolescents. Mate selection and preparation for marriage have been interesting aspects in the program. This part of the course was brought to a climax by the students actually performing a play marriage ceremony in class.

Rev. Larry Doster, pastor of Henderson Baptist Church, visited the class and talked about the importance of marriage, and conducted the ceremony, complete with wedding music.

It is hoped that the seriousness of marriage was impressed upon the students as we try to educate them in the importance of the family, and hopefully drop the divorce rate in the next generation.

### MC Sponsors Book Fair

**BY: DONNA RUGG**

In order to give students a better opportunity for a variety of reading material, the Midstate Book Company set up a book fair in the high school library.

The fair was held January 5-9. Sales were good, which indicated the students' interest in reading. The fair was open to anyone who wished to purchase a book.

Elementary students are looking forward to having an elementary book fair in the Spring.

Assistant County Agents 4-H

### WORKING TOGETHER

Pulling together is the secret to success. It is a wonderful opportunity for us to work with FFA leaders in Coffee County. C.C. Martin of Enterprise, Mike Carney of Elba, and Coffee County's FFA teachers, and they do an excellent job. We work together on the Market Hog Show, Steer Show, Livestock and Meat Judging Teams, and they also judge 4-H events. With takes all of us pulling together to provide Coffee County's youth with the best possible.

### IT NEVER HURTS TO ASK

The Coffee County 4-H Meat and Livestock teams are beginning to work even on these cold days. With many 4-H parents working, it is hard for some 4-Hers to get to the meetings. We recently asked several teachers at Zion Chapel and New Hope and parents from other areas if they would help bring these 4-Hers in to the meetings. Everyone said they would bend over backwards to help. We think the best folks in the world live in Coffee County.

### MANY WINNERS

The 4-H Woodworking Program provides a wonderful opportunity for all 4-Hers. There will be winners from most all 4-H clubs, plus a county winner in the junior and senior divisions. These junior and senior winners will represent Coffee County this summer at district competition at Troy State. This two-day event at Troy State is a real blast. If you don't believe us, just ask Scott Kellner of Elba and Mike Carney of Kinston. Coffee County's representatives in wood-working last year.

### H&R BLOCK TAX TEST

Question No. 5

You should always file the same tax form the IRS sends you in the mail.

☐ True ☐ False

Your financial circumstances change from year to year. The form you used last year might not be the right form this year. H&R Block can help you determine which is the best form to use.

The answer is FALSE, since the IRS can't know of tax related changes which might have occurred in your situation last year.

## Around The Town

Mrs. Nellie B. Martin

As the strains of "Auld Lang Syne" fade away, and the traditional "Happy New Year" is welcomed, let us resolve to strive always to be like a good watch: open-faced, busy hands, pure gold, needful well-regulated and full of good works.

The doors of opportunity are marked "Push-Pull." Opportunities multiply as they are seized, but die when neglected.

Remember to do your best. And after that is done, be glad you tried, be satisfied.

Whether you've lost or won!

Nice things happen to nice people, at any season of the year! Seemingly, the last holiday would be a bit dull and gloomy for Mr. and Mrs. Jerry Sheffield and Kellie.

Jerry had had recent surgery and so it would be Christmas at home. Of course, Santa would not forget - and, too, there would be the exchange of gifts - but a long, lonesome day.

However, when Mr. and Mrs. J.T. Sheffield, Jerry's parents, arrived, accompanied by Danny and Debbie Sheffield, also Mr. and Mrs. Orel Johnson, Mrs. Sheffield's parents, came to the home for Christmas.

They, too, brought Christmas. Near dinner time, joining this congenial group, with more Christmas, were Mr. and Mrs. John Frank Hudson and Vanessa.

So, Christmas at the Jerry Sheffield's on the North Troy Highway, was super!

Words have wings and fly away - but the thoughts they leave will always stay - with the Sheffield's.

Yes, there were many Christmas festivals and family get-togethers all over our community. But the families of the late Mr. and Mrs. Dave Vaughan were together on all Christmas Eve night, and all Christmas Day.

So, for this family, Christmas was special!

On Christmas Eve the gathering took place at the attractive home of Mr. and Mrs. Raymond Tatum, on Seminole Circle.

The beauty of nature, trees and shrubs, were used to enhance the outdoor decorations which were most fitting for the setting of this modern and stylish home.

I'll venture and say that Martha had everything looking its holiday best. Of course, pretty decorated packages for the young and the less young were piled high under the family tree.

There were big tables and little tables, with little places to accommodate the group. Food? Yes, it was there! Everything was ready to bring something special.

So the feasting began! Those enjoying Raymond, Martha and Tommy's hospitality were Mrs. Ruth Tatum, Mrs. Brockton, Mr. and Mrs. Roy DeVane, Mr. and Mrs. Stanley Prior, Mr. and Mrs. Jack Vaughan, Holly Van, of Tuscaloosa, Mark, Candace and Bonnie, Mr. and Mrs. Bill Stokes, Mr. and Mrs. David Stokes, Jake and Anna, Mr. and Mrs. Dennis Lawford and Kevin, Mrs. Cindy Darnell and Connie Mae, Mrs. Jackie Smoker and Billy, and Miss Teresa Tatum, all of Montgomery.

The clock hands were pointing straight up, and gradually the visitors disappeared - just in time for Santa's visit.

Santa had left a variety of his toys and everybody, big and little, had a merry time and a second feast!

To add to the Waylon Adkins' holiday were the families of two of Betty's brothers - Mr. and Mrs. Wayne "Skip" Lashley and Mr. and Mrs. James Lashley of Okeechobee, Florida.

Mr. and Mrs. Ralph Carr and Tonya, of Lexington, Kentucky, enjoyed a pleasant visit with Mr. and Mrs. Dean in the Zion Chapel Community.

To be back in their home

were the parents of three children, who share and help her to maintain her lovely home. She's a most active church and community worker, and was a real asset to the educational system of Coffee County for many years.

Leamon is one of Coffee County's foremost retired educators. Many were the years of service he contributed to the teaching field. Too, at one time, he was the efficient superintendent of Coffee County System.

Leamon lives in the home where he was born and reared in the Damascus Community. From his general conversation, you would realize he has a few infirmities, but is a natural-born fighter.

However, that's the right spirit, Leamon, so hang in there - we will be looking for you to join us at the next teachers' retirement luncheon on February 24, 1981, at Holly's Restaurant.

If friendship in life is what you're seeking, check what you're saying before you start speaking.

## Merry Morning Christmas Coffee Held

This special early morning Coffee was on one of the most gorgeous Tuesdays that December showered us with!

The hours were 9:30-11:00 - the delightful hostesses were Dixie, Stacey and Susan Dorsey, plus Becky, Katrina and Ceina Hayes.

The gala affair was held in the stately Dorsey home on Cherokee Lane.

The many original and colorful Christmas decorations of the surrounding neighborhood added charm and an appearance of Christmas everywhere!

The high Christmas wreath, framed by the outline of the door, was a spot of beauty at its best, and offered a warm welcome.

Mrs. Dorsey, in a stylish street dress, graciously greeted each guest.

Inside, the holiday glitter and the relaxed informal atmosphere were treasured experiences of the great number of guests attending.

The rooms were filled with friendly ladies, and many were the greetings.

Sharing in the merriment of the party were two charming conversationalists from the skillful hands of Richard Hayes of Enterprise, Dixie's mother, and Mrs. Catherine Hines, a lovely friend of Dixie's.

Christmas decorations were so beautiful with simplicity. The mantel was banked with waxes green holly and berries; flaming red tapers graced either end.

Hanging above the mantel was a colorful needlepoint Christmas wreath, a lovely piece of art from the busy fingers of the capable Catherine Dorsey.

Mr. Reynolds

Patrick, Liz and Rayfield Reynolds

Mr. Reynolds constructed this one-piece semi-circular table for use by the Elba City Council

## Rayfield Reynolds - Cabinet Maker Wood Worker - Carpenter

Rayfield Reynolds, who has been 13 years old when he built his first piece of woodwork - a combination meal and flour bin - made from poplar.

"From the time I was a little boy, I always wanted to work with wood," said the owner of Reynolds Cabinet Shop in Elba.

During the next few years, he worked on "first one thing, then another," in the field of woodworking. Then in the 30's, he repaired the old peanut mill, which was located in Newtown.

"I did so well on that job, the foreman wanted me to work on something else - so I built a peanut-shelling plant out of wood."

Two years later, Reynolds constructed the first peanut blancher - that is a machine to remove the husks from peanuts.

"That peanut blancher we made was almost like mayonnaise - it was so smooth," he said proudly.

"We used half and half of No. 1 Spanish and No. 1 Runners. That was the first real good peanut butter that was made. I worked at the peanut mill in New Brockton - the Southern Peanut Butter Company - owned by Mr. Harris Murphy."

"We started carrying samples of the peanut butter down to the depot, sending them off to various companies, and within a year, we had seven trucks running day and night delivering the peanut butter."

Then in '46 or '47 I built 50 vans for Dorsey Trailers, which was situated where the present-day Western auto is located. From those samples Dorsey got their first multi-million-dollar contract and moved the plant to its present location."

Reynolds is a Coffee County native, having grown up "about five miles out in the country from here," he

is married to the former Jessie Mae Gray, the daughter of Rev. D.W. Gray, and has been for 45 years. They are the parents of four children - a daughter each in Boston and St. Louis; two sons - Patrick and Bernard of Elba. (One son, Raymond, is dead.)

After the war, Reynolds participated in various training programs for D.D. students at the Elba schools, and on government program - such as CETA.

"Practically everyone I trained has gone out and done something with that experience."

Then, about a year after Mr. Pete Dorsey died, I left the company (Dorsey's) and built a shop at my house. I later moved to the present shop here on Jackson Street." (Between Taylor Mill Road and the Opp Highway.)

"We are presently building round tables," said Reynolds, "and we send them all over the United States, and have sent six to Germany."

"We've built lots of office and school furniture," he continued, "and built all the furnishings for the science building at Zion Chapel School."

The furniture constructed at the Reynolds shop is made from practically every kind of wood available, which is obtained from the various lumber and saw mills around.

At the present time, only his son, Patrick, and daughter-in-law, Liz, are employed with him. Liz only works part-time, however.

Reynolds' next project is to establish a research program - that is experimental work with various kinds of wood - i.e., if someone wants a certain piece of furniture from a special kind of wood - he will attempt to construct it. At that time, he hopes to have some of his trainees back to help him.

## Radiator Burglary Solved

The recent burglary of eight radiators from a storage trailer at Elba High School was solved in less than five hours by members of the Elba Police Department.

Officials at the school notified the Police Department of the burglary on the morning of Thursday, January 8. The Elba Police started the investigation on Friday, January 9, and by Noon of that day, had all the radiators back at the station and had made five arrests.

Arrested were Milton Andrews Hooks (18), a black male; Charlie T. Jordan (18), a black male; and three juveniles, all black. All five suspects are from Elba.

Officials at the Elba Police Department reported the radiators, which weighed over 500 pounds each, were stolen during the holidays and sold to the Elba Metal Company in Brundidge. A worker at the company assisted in the investigation, which was headed by Officer Gary Brown of the Elba police.

Hooks and Jordan were both charged with 1st degree theft, while charges against the juveniles are pending until after a hearing in Juvenile Court.

## THE PRESSBOX

By: Ricky Mulaz Sports Editor

Coach Jerry Kirkland's Elba Tigers were on a hot streak prior to the Christmas holidays, and had rolled up 6 straight wins. Well, the two-week holiday has ended and so has the Tigers' winning streak! Elba hit the hard court three times last week and suffered three losses as their record slipped to 6-4. The loss to Greenville was a blow-out, but the other losses came in games that weren't decided until the final horn. Don't be fooled, folks, we've got a good team and I betcha they've still got a lot of wins left this season.

Many times it's hard to find something good in a loss, but that wasn't the case last week. The "silver lining" in the dark clouds was the play of senior Frederick Reed, Frederick, called "Rebate" by his teammates, poured in 12 points in the loss to Daleville and topped that with a 34-point outburst against Brundidge. Reed is a good player with a good shot and if he keeps up the pace, he could be headed for a college team. Come on, "Rebate," we're all pulling for you to lead Elba to a lot more wins!

The South Alabama Conference held its Girls Conference Tournament in Elba last week, and I managed to see at least a little action every night. There were some good players on all the teams, and Opp was a very deserving champion. However, the overall quality of girls basketball in this area is still not where it should be, and the main reason is the referees. It's okay for a young girl to giggle or smile when she makes a mistake on the court, and it's up to the coach to make them stop. The problem is that the refs, too, think it's okay for them to giggle or smile when they make a mistake, and just let the girls get away with foul and turnovers. The play of the girls will only become "top notch" when the refs get strict and make them play by the same rules as the boys.

In the championship game the referees did an outstanding job and called a very good game. There were a lot of fouls called, but in my opinion it was the best game of the tournament, and the refs got part of the credit!

This week's "Clipper Poll" has a few changes in all four classes due to a couple of big upsets. The biggest upsets last week were: Northview over Selma, Enterprise over Lanier, Brundidge over New Brockton, and Daleville over Elba. The State Tourney is only 6 weeks off, and I am already making plans to attend for the seventh straight year. I'm not making any bets, but look for most of the teams in the "Clipper Poll" to be at State representing the South.

Here goes.....

## CLASS 4A

1. Selma
2. Northview
3. Central
4. Tuskegee
5. Jeff Davis

## CLASS 3A

1. Andalusia
2. Eufaula
3. Jackson
4. Abbeville
5. Brundidge

## CLASS 2A

1. Headland
2. Georgia
3. New Brockton
4. Houston County
5. Florala

## CLASS A

1. Kinston
2. Leroy
3. Brantley
4. Billingsley
5. Houston Academy

I watched both the playoff games on TV Sunday, and really enjoyed both games. I was pulling for Philadelphia to beat Dallas, and although the score could have been a whole lot worse, the 20-7 final was fine. I was especially pleased with Wilbert Montgomery, who rambled for 20 yards to far outshine the Cowboys' superstar Tony Dorsett!

I have to admit I was pulling for San Diego, but wasn't too upset with Oakland's win. I've always been a Raider fan, and have to pull for Jim Plunkett to continue to do well and keep Pastorini on the bench (him I don't like).

The Super Bowl! I'll have to go with Philadelphia in a toss-up!

The City Recreation Department is working to acquire Federal funds to buy a 40-acre tract of land for a new recreation complex, and everyone has their fingers crossed that the money will be released and sent to us. Plans to use the land include 3 softball parks, several tennis courts and practice fields. We need some new parks, and should know by March if we're going to be funded. Keep your fingers crossed!

Got to go to a basketball game, see ya there.....

## Elba Junior High Drops To 6-2 In Cage Action

The Elba Junior High season hit the dust last week as the Tigers lost two straight games to Greenville 34-32, and Brundidge 40-27.

Brundidge pulled away in the second half to bury the Elba Junior High Tigers 40-27. Elba was tied 16-16 at the half, but scored only 2 points in the third stanza and fell behind too far to catch up.

The previously unbeaten Tigers owned a 7-6 lead after one stanza, but fell behind and couldn't quite catch up!

Dwayne Hooks scored 13 points to lead Elba, while Digs hit 12 to pace Brundidge.

B'didge (40): Digs 12, Gaylor 5, McWaters 4, Powell 4, Wheeler 7, Lee 4, Griffin 2.

Elba (27): Siler 4, Hooks 13, Daniels 2, Henderson 7, Hudson 1.

## Tigers Run Past Opp 67-60, Advance In SAC Tourney

The Elba Tigers competed in the first round of the South Alabama Conference basketball tournament on Monday night, and posted an exciting 67-60 win over the

## Tigers Start New Year With 3 Straight Losses

The Elba Tiger basketball team swung back into action last week after a long holiday break, and had little to cheer about as they suffered 3 straight losses! The Tigers, now 6-4, lost to Greenville 34-32, Daleville 61-58 and Pike County 67-64.

Greenville 72 Elba 55

Elba fell behind early in the game and could never catch up, as Greenville posted a solid 72-55 win, in Greenville. The homecoming Tigers jumped into a 40-30 halftime bulge, opened a big 18-point lead going into the final stanza and cruised to a win that snapped Elba's 6-game winning streak.

Elba's Don Horstead poured in a game-high 25 points to lead Elba, while Lamar Thornton scored 12 points to lead Greenville.

Elba 13 17 11 14-55 Greenville 20 19 13 72

Elba (55): Reed 13, D. Horstead 25, Guley 8, T. Horstead 10, Cox 2.

Greenville (72): Thornton 12, March 6, Lewis 2, Crenshaw 8, Crum 8, Hicks 7, Peagler 5, Payton 8, Mitchell 3, Powell 6, Ruffin 7.

[B Games: G'ville 44 - Elba 41]

G'ville (44): Lewis 12, Yelton 11, Kent 6, Crum 4, Benson 6, McDole 1, Rudolph 1.

Elba (41): S. Barnes 12, Pope 14, Morris 2, Hooks 1, Daniels 4, Bilal 3, W. Barnes 5.

Daleville 61 Elba 41

Elba staged a furious fourth-quarter rally to tie the score at 52-52, but couldn't keep rolling in overtime and dropped a hard-fought 61-58 decision to Daleville, before a large crowd in the Elba High gym.

The Warhaws led throughout the early going, only to see the Tigers' Frederick Reed get "red-hot" and score 15 points in the second stanza to lift Elba to a 28-27 halftime lead. Daleville moved back on top in the third quarter as Reed was forced to sit-out over 3 minutes of play after picking up his fourth foul.

The Tigers staged their famous fourth-quarter rally and had a chance to win the game with 30 left and the score tied at 52-52, but Elba

## County Junior High Tourney Set For Next Week

The Coffee County Junior High basketball tournament will be held at the Coppenhove gym, with teams competing. The tourney will be on Monday, January 19, through Thursday, January 22, and the winner will then advance to the region competition.

The tourney will begin on Monday at 5:00, with Kinston meeting New Brockton, followed at 6:15 with a battle

## SEAC Tourney Enters Semi-Final Round Tonight

The Southeast Alabama Conference basketball tournament is underway this week in Kinston, and in tonight's (Thursday) action, the four semi-finalists will meet in hopes of advancing to Friday's championship game.

In games tonight at 6:00.

## Prep Basketball Spotlight

It took five overtimes and three hours of basketball to determine a winner between Anniston and Etowah as state prep action hit its full stride last week.

Other spotlight performances:

Northview snapped Selma's unbeaten string at 16 for the second year in a row with a 56-44 upset victory.

Sparkman, ranked No. 1 in Class 3A, ran its record to 17-0 with three wins last week.

Jerome Ballard totalled 33

## Opp Bobcats.

The win upset Elba's record to 7-3 and moved the Tigers into a second round clash with Brundidge, to be played on Wednesday night. The S.A.C. tourney is being held at Lufkin E. Wallace Junior College, in Andalusia, and will conclude on Friday night, January 16.

Opp jumped to an early 10-4 lead in Monday's game, and seemed to have the game under control, but the Tigers simply hadn't warmed up, and rebounded to score 13 straight points and take a 17-10 lead after one stanza of play. Opp came roaring back in the second period and took advantage of a sudden "cold spell" by the Tigers to reach the score at 26-26 at the half.

Opp moved on top 32-28 early in the third period and the two rivals battled nip-and-tuck for the remainder of the stanza, with Elba rallying late in the quarter to grab a 2-point lead.

The Tigers' lead grew to 49-44 at the outset of the final stanza on a bucket by Frederick Reed, but Opp again came back and regained the lead at 50-48. The teams swapped buckets as the score remained tied as far along as 56-56, with Elba finally moving on top by 3 points at 59-56 on a 3-point play by Doug Daniels.

The Brundidge Bulldogs connected on 19 of 30 free-throws, while Elba hit 0 of 2, and the difference at the foul-line proved too much to overcome as the Tigers dropped a 67-64 decision, in Brundidge.

Brundidge pulled into a 19-13 bulge after one quarter and appeared ready to pull away, but Elba refused to quit and battled back to tie the score at 52-52 going into the final stanza. The Tigers moved ahead after one minute to go, crucial free-throws by Ted and Don Horstead kept Elba on top in the closing minutes and iced the win!

## New Brockton Rebounds From Loss To Dump Laverne 75-48

The New Brockton Gamecocks came back strong following a stunning 22-point loss to Brundidge, to whip the Laverne Tigers 75-48 last week, and in doing so, upped their record to 8-5.

"We just got an old-fashioned whipping up in Brundidge," stated Coach Charles Cole, "but we came back and played pretty good against Laverne. We hope to win our conference tournament this week and then set our sights on the Area and Region tournaments. I still think we're the team to beat in 2A!"

"The remainder of our schedule is tough - no, it's frightening," said Cole. "We're going to try to get better as the season nears the final weeks, and I think the fact we're going to be playing two or three games a week will help us. I think the constant pressure will make us a better club."

As the 1980-81 season begins to wind down, several Gamecock players are reaching milestones in their careers. Ricky Nelson and

Robert Wilson have both gone over the 1000-point mark during their careers at New Brockton. Wilson, with a scoring total of 1025 and Wilson with a total of 1178 points. Frederick Thomas recently surpassed the 1000-mark in rebounds, and needs only 132 points to reach the milestone in scoring. There's no doubt this is a record-setting team!

New Brockton used a sticky defense and a fast-paced offense to post a lopsided 75-48 win over area rival Laverne last Friday night in Laverne.

The Gamecocks took command in the opening stanza, moving on top 18-6, and then coasted to their 8th win of the season.

Ricky Nelson and Otis Andrews scored 23 and 15 points to pace the Gamecocks, while Charlie Johnson hit 10 to lead Laverne.
